Exploring New Frontiers

Our Mission: To Improve the health of communities.

Over the last several decades our group purchasing organization has done that in a myriad of ways, notably by negotiating a market-leading contract portfolio encompassing over a thousand suppliers on behalf of our 130,000+ members. Premier's comprehensive offering of products and services cover the needs of the modern-day health care landscape, touching almost every area of operations from patient care to floor care and everything in between.

You might ask why a healthcare group purchasing organization would branch out into business and industry. Our owner health systems survive and thrive in economically healthy communities that offer job growth, a commitment to education and attractions in the arts and tourism. Demand for group purchasing has rapidly increased in hospitality, schools, universities and recreation. Premier's non-healthcare membership is over 18,000 strong. The commercial sector is following suit, looking to Premier to help standardize purchasing decisions and streamline the supply-chain. Savings on products and services and efficiencies in contracting allow companies to keep focus on their core business and customers.

We invite you to review our growing portfolio of agreements available to the commercial segment of our membership, business & industry. We look forward to helping you unlock the value of our contracts and programs for the commercial segment.
