

Healthcare Procurement Solutions, LLC ("HPS") was created specifically for physicians and their private medical practices to save money on the products and services they use. HPS does this by leveraging the collective buying power of thousands of participating

physicians and practices to provide its members with the deeply discounted pricing and service enhancements that are simply not available to individual practices acting independently.

**Participation in any of the HPS programs is entirely voluntary, non-exclusive, and there are no membership dues or fees of any kind paid by HPS Members.**
